

CHINA-FOCUSED RESOURCES, TRAINING, & TRANSLATION

Knowledge for our common future

www.berkshirepublishing.com

Berkshire Publishing Group has decades of experience in taking the knowledge of China-focused experts and making it accessible to professionals who need it. There is a widely acknowledged undersupply of China specialists in government, and a lack of tools and expertise available to the policymakers who need accurate, comprehensive, and current information about China.

Berkshire's network of China scholars and other experts is unmatched, we have traveled in China, worked with Chinese companies, and developed teams of dozens or sometimes hundreds of experts to work on a single project. We specialize in creating materials to fill gaps in evolving fields. These materials include:

- Case studies & scenarios
- Training manuals & curricula
- Glossaries & white papers
- Photographs & visual guides
